

Molift Mover 180

For Home or Inpatient Care

Light Weight for Home or Inpatient Care

With a lifting capacity of 397 lb (180 kg), the Molift Mover 180 is a great solution for home or care areas with clients who have frequent or everyday mobilization needs. The unique construction, lightweight frame, and wheel positioning provides excellent maneuverability while maintaining under bed clearance.

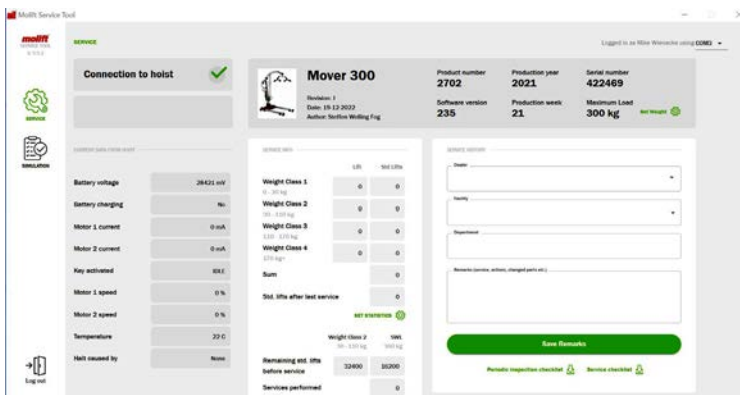

Excellent Lifting Range

Molift Mover 180 lifts easily from the floor, reaching down to 10.4 in (26.5 cm) at the lowest. A maximum lifting height of 64.2 in (163 cm) provides lifting space for mobilization and transfers. The Mover 180 is also equipped with environmentally friendly and dependable NiMH battery.

Molift Service Tool

The Molift Service Tool is a unique software package which can be connected to all Molift motorized products enabling a qualified service personnel the ability to read, verify and analyze the key parameters in the lift. This makes it an effective tool for reading the service history and ensuring that the lift is working properly.

- Allows clinicians to assess product utilization by frequency and patient weight class
- Weight class settings can be customized to meet the needs of the facility
- Allows for recording of product placement date, placement location, and service intervals
- Allows Biomedical Engineering to assess general equipment condition during normal preventive maintenance and diagnose problems as needed
