

Molift Mover 180

A Lightweight and Compact Lift

High capacity in a low total weight

With its high lifting capacity of 300 kg (660 lbs), Etac Molift Mover 300 is the ideal solution for hospitals and environments with clients who have frequent and everyday mobilization needs. With a total weight of only 39.3 kg (90 lbs) the Molift Mover 300 is the lightest in its category. The unique construction and wheel positioning provides excellent maneuverability while maintaining ultra-low under bed clearance .

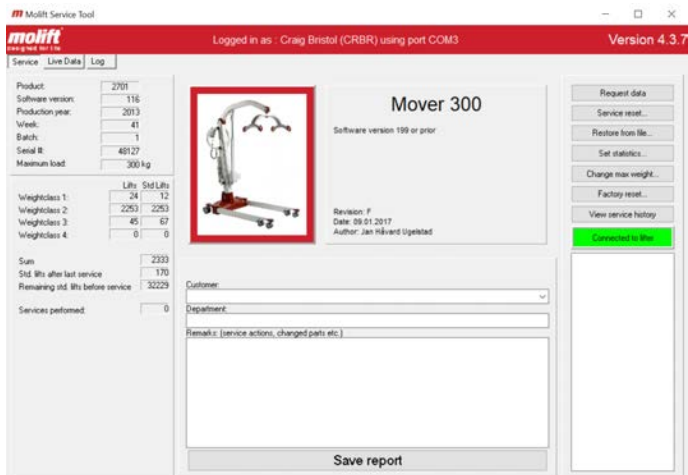

Excellent lifting range

Molift Mover 300 lifts easily from the floor, reaching down to 40 cm (15.7") at the lowest. A maximum lifting height of 179 cm (70.4") provides great free lifting space and possibility for gait training. The Mover 300 is also equipped with environmentally friendly and dependable NiMH battery.

Molift Service Tool

The Molift Service Tool is a unique software package which can be connected to all Molift motorized products enabling a qualified service personnel the ability to read, verify and analyze the key parameters in the lift. This makes it an effective tool for reading the service history and ensuring that the lift is working properly.

- Allows clinicians to assess product utilization by frequency and patient weight class
- Weight class settings can be customized to meet the needs of the facility
- Allows for recording of product placement date, placement location, and service intervals
- Allows Biomedical Engineering to assess general equipment condition during normal preventive maintenance and diagnose problems as needed
