

Molift Mover 205

A Versatile Everyday Lift With A Low Clearance Option

Shown with Low Clearance
Two Point Carry Bar Option

Maneuverable, Lightweight, With a Low Clearance Option

With a lifting capacity of 452 lb (205 kg), Etac Molift Mover 205 is a perfect solution for hospitals and environments with clients who have frequent and everyday mobilization needs. With a total weight of only 39.3 kg (90 lbs) the Molift Mover 205 is easy to maneuver and offers an option for a low clearance base.

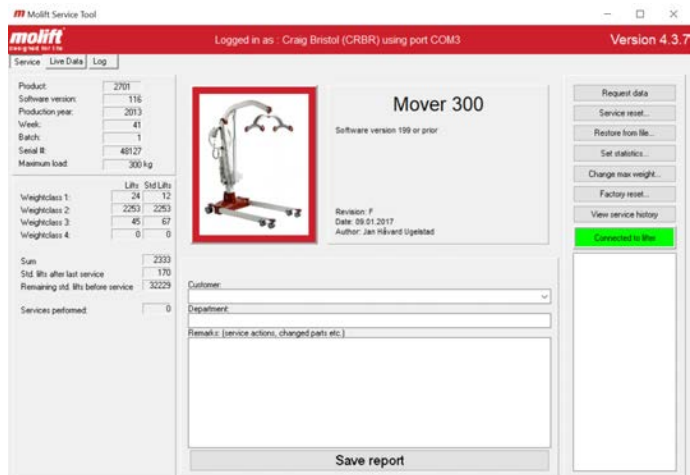

Excellent lifting range

Molift Mover 205 easily lifts from the floor, reaching down to 40 cm (15.7") at the lowest. A maximum lifting height of 179 cm (70.4") provides great lifting range for a multitude of transfers. The Mover 205 is also equipped with environmentally friendly and dependable NiMH battery.

Molift Service Tool

The Molift Service Tool is a unique software package which can be connected to all Molift motorized products enabling a qualified service personnel the ability to read, verify and analyze the key parameters in the lift. This makes it an effective tool for reading the service history and ensuring that the lift is working properly.

- Allows clinicians to assess product utilization by frequency and patient weight class
- Weight class settings can be customized to meet the needs of the facility
- Allows for recording of product placement date, placement location, and service intervals
- Allows Biomedical Engineering to assess general equipment condition during normal preventive maintenance and diagnose problems as needed
