

Molift Smart 150

Lightweight and Portable, Designed for Transport

Foldable for Storage or Transport

With a weight capacity of 330 lb (150 kg), the Molift Smart 150 is an ideal solution for on-the-go mobilization, wherever you need it. Its unique construction allows the lift to fold in half without using any tools. Perfect for home care situations, this lift is easy to store at home or transport to your destination.

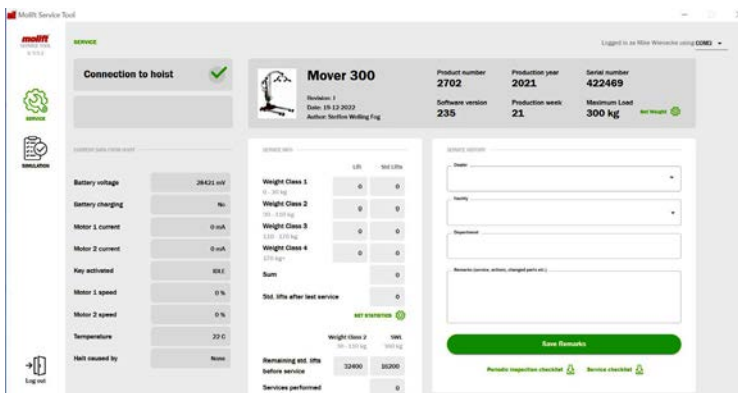

A Complete Lift in a Compact Form

Reaching down to the floor and up to 65.5 in (167 cm), the Smart 150 has mobility tasks covered. It weighs in at less than 60 lb (27.2 kg). A Soft Transport Bag or a TSA approved hard Travel Suitcase are available for purchase. The Smart 150 is also equipped with environmentally friendly and dependable NiMH battery.

Molift Service Tool

The Molift Service Tool is a unique software package which can be connected to all Molift motorized products enabling a qualified service personnel the ability to read, verify and analyze the key parameters in the lift. This makes it an effective tool for reading the service history and ensuring that the lift is working properly.

- Allows clinicians to assess product utilization by frequency and patient weight class
- Weight class settings can be customized to meet the needs of the facility
- Allows for recording of product placement date, placement location, and service intervals
- Allows Biomedical Engineering to assess general equipment condition during normal preventive maintenance and diagnose problems as needed
