The Tango Shower Chair & Commode by Lopital is a showering and toileting aid to assist with hygiene needs for anyone that has challenges standing or balancing for extended periods of time. Three models provide capacity and safety up to 800lb (360 kg).

The Tango provides a comfortable seated surface that is easy to clean and user friendly. It can be used over a toilet or with an accessory pan that can be removed while seated. All models have footrests and drop-arms that fold out of the way for standing, seated, or sling transfers.

Each of the Tango models has lockable casters that move independently. They are easy to maneuver, with a tight turning radius. Thoughtful construction provides a comfortably stable and secure seated surface for hygiene and transport needs in any care environment.
